

# Polished Concrete

TTM Finishes can offer a concrete polishing solution that makes sense for your business. Our use of industry-certified diamond polishing techniques can transform your raw, stained or rough surface concrete into a marble-like finish that's virtually maintenance free.

A top finish for retail, municipal, commercial office, and warehouse facilities. Polished concrete has a longer lifespan than most materials such as vinyl tile or stone tile and offers a natural stone appeal that is elegant, sustainable and inexpensive to do. Just use your existing concrete floors in a whole new way.

## Features & Benefits:

- Eliminate waxing and stripping, reducing floor maintenance by up to 60%
- LEED compliant, Eco-Friendly and Environmentally Sustainable
- Better light reflectivity, brighter working space
- Smooth and durable non-slippery surface area
